says:

"I have read of the government's tentative naval program with profound astonishment. One reason for my surprise at the more ambitious naval program which is suggested is the fact that it involves a great increase in our now enormousive large appropriations for naval purposes without basing it on any necessity whatever as a means of national defense, and also without any regard whatever to the fact that in this fiscal year we are facing a deficit and next fiscal year we will be near our aggregate revenues in the amount appropriated this session.

Competition With Other Nations.

"If our naval policy is to be determined by our ability to compete with other nations in the number and size of our battleships, then the naval policy

Dreadnoughts was necessary in order to make efficient those previously authorized. Since then we have authorized two more. If we now authorize a 32,600-ton Dreadnought at a cost of \$18,000,000 or \$20,000,000 it will mean that we must build more in the future in order to have a homogenous squadron of vessels of that class. "The number of years of the life of these vessels will not be as great as the number of millions it will cost to build them. They will depreciate at least \$1,000,000 a year, and it will cost at least several million dollars a year to operate these monster battle-ships in times of peace."

## IN MEMORIAM

WINDELL—On January 6, 1910, MRS.
FANNIE FARRAR WINDELL died at the home of her daughter, Mrs.
Newton Windell, in Norfolk, Va.
Her death came as a terrible blow, bringing with it deepest grief and sorrow, not only to her dear daughters, sister and brother, but to her many friends.
Always bright and hopeful, she carried with her gladness wherever, she went, and her presence will long be missed.
Early in life she united with Union Station M. E. Church, and has always been a loyal follower of her Saviour, putting His will first in everything.
Her life was wonderfully blessed, and when the summons came, sudden though it was, it found her ready and waiting to enter into that—

Peace, perfect peace, with sorrow surging round:
On Jesus bosom, naught but peace is found.

Peace, perfect peace, with loved ones far away. In Jesus' keeping, we are safe and they.

Peace, perfect peace, death shadowing us and ours:
Jesus has vanquished death and all its powers.

It is enough; earth's struggles all have ceased.

And Jesus calls me home to perfect neace. BY ONE WHO LOVED HER. GIN USED AS MEDICINE

When Properly Used, Makes Fine Remedy for Kidney, Liver and Bladder. Doctors agree that good, pure gin, when properly combined with other ingredients, makes the best kind of medicine for kidneys, liver and bladder. The prescription used most is here given: Mix six ounces good, pure gin with one-half ounce murax for which the half ounce fluid extract buchu, then add one-half ounce murax compound. Shake these together theroughly and take one to two teaspoonfuls of the mixture three times a day after each meal. This prescription has cured many bad cases of kidney and bladder trouble and will prevent serious disease, such as Buight's disease, chronic rhoumatism or diabetes. Any good druggist can supply the ingredients.
